

We will ensure that every aspect of our activities is conducted in accordance with sound environmental practices.

We will achieve this by:

- 1 Minimising the consumption of natural resources and energy, whilst consuming material goods in moderation
- 2 Reducing the creation of waste by the adoption of improved operating practices and by the recycling of materials whenever practical
- 3 Ensuring all waste and effluent is disposed of in a safe and responsible manner
- 4 Investing in the development of new products and processes that have an improved performance regarding their impact on the environment
- 5 Complying with Environmental legislation

MD Import Export Ltd aims to foster among its staff, suppliers, customers and communities local to its operations an understanding of environmental issues in the context of its business. Our collective task is to ensure that we continually improve the environmental impact.

By this policy MD Import Export Ltd recognises its responsibility towards protection of the environment, and issues this statement as a commitment of both management and employees to minimising the environmental impact of its operations. This ethos is vital in order to allow us to continue procuring only the best quality fruits and vegetables from around the world. Programs that have been implemented to focus on more efficient fuel and energy usage, waste management and the recycling of packaging materials include:

- Recycling waste packaging material such as cardboard and plastics
- Utilising passenger airlines for air-freighted goods, minimising our carbon footprint
- Supporting airlines with strong green credentials
- Specifying plant and equipment at our facility that has been specifically chosen for their energy efficient properties.
